

Information about Covid-19

Hygiene rules for the implementation of internships at the Medical Faculty

- Internships will not be conducted with patients until further notice.
- Students will wear mouth-nose covers on campus and in all rooms.
- Setting up mobile disinfection dispensers: Hands must be disinfected before entering the classroom.
- Students must be instructed on the rules of distance (at least 1.5 to 2 m).
- The surfaces in the classroom are regularly disinfected after the course.
- The students are to be informed that participation in the course is not possible if SARS-CoV2- typical symptoms have occurred in the last 48 hours, especially:
 - Coughing (productive, dry)
 - Sore throat
 - Fever
 - Diarrhoea
 - in particular: sudden loss of smell and/or taste
- Students are also kindly requested to update their contact details, especially their mobile phone number, in KLIPS 2.0

I hereby confirm that I have read the current information on the websites (listed below) of the University of Cologne and the Faculty of Medicine regarding the execution of project work, practical semesters and final theses in the study programmes Neurosciences (B.Sc) and Experimental and Clinical Neurosciences (M.Sc) and that I have taken into account the current regulations in the planning and execution of the study sections listed above
