Exemplary Schedule Master Experimental and Clinical Neuroscience Summer Term 2025

Week 0	Monday 31-03-25	Tuesday 01-04-25	Wednesday 02-04-25	Thursday 03-04-25	Friday 04-04-25
8:00 8:30					
9:00 9:30					
10:00 10:30					
11:00 11:30					
12:00 12:30					
13:00 13:30					
14:00 14:30					
15:00 15:30					
16:00 16:30					
17:00 17:30					
18:00 18:30					
19:00 19:30					

Lecture period:
07/04 - 18/07/2025

Holidays:
18/04 - 21/04/2025 (Easter break)
01/05/2025 (May Day)
29/05/2025 (Ascension Day)
09/06 - 13/06/2025 (Whitsun break)
19/06/2024 (Corpus Christi)

ETN abbr. for Experimental and Translational Neuroimaging
NPD abbr. for Neurological and Psychiatric Diseases
CN I abbr. for Clinical Neuroscience I
NANS abbr. for Neurosurgical Aspects in Neuroscientific Systems
NF I abbr. for Neural Function I
ND abbr. for Neurobiology in Drosophila

Exemplary Schedule Master Experimental and Clinical Neuroscience Summer Term 2025

Week 1	Monday 07-04-25	Tuesday 08-04-25	Wednesday 09-04-25	Thursday 10-04-25	Friday 11-04-25
8:00 8:30					
9:00 9:30	9:00-11:00 **Neural Function I** Lecture (seminar room 1.007 Biocenter) 11:00-17:00 Practical (course room 1.006 Biocenter)	9:00-11:00 **Neural Function I** Lecture (seminar room 1.007 Biocenter) 11:00-17:00 Practical (course room 1.006 Biocenter)	10:00-12:00 **Animal Models**	9:00-11:00 **Neural Function I** Lecture (seminar room 1.007 Biocenter) 11:00-17:00 Practical (course room 1.006 Biocenter)	9:00-11:00 **NF I** Lecture (seminar room 1.007 Biocenter) 11:00-17:00 Practical (course room 1.006 Biocenter)
10:00 10:30					10:00-12:00 **Animal Models**
11:00 11:30					
12:00 12:30					
13:00 13:30					
14:00 14:30	14:15-15:45 **Neurological and Psychiatric Diseases***				
15:00 15:30					
16:00 16:30	16:00-18-00 **Clinical Neuroscience I**	4-5:30pm **Neurosurgical Aspects in Neuroscientific Systems**			
17:00 17:30					
18:00 18:30					
19:00 19:30					

* Neurological and Psychiatric Diseases: library of the Neurology building 30, first floor

**** Animal Models in Neuroscientific Research schedule unconfirmed, more information in the email announcement**

Times for Neural Function I and Neural Function II practicals may vary depending on experiments and needs of students

Exemplary Schedule Master Experimental and Clinical Neuroscience Summer Term 2025

Week 2	Monday 14-04-25	Tuesday 15-04-25	Wednesday 16-04-25	Thursday 17-04-25	Friday 18-04-25
8:00 8:30					
9:00 9:30	9:00-11:00 **Neural Function I** Lecture (seminar room 1.007 Biocenter) 11:00-17:00 Practical (course room 1.006 Biocenter)	9:00-11:00 **Neural Function I** Lecture (seminar room 1.007 Biocenter) 11:00-17:00 Practical (course room 1.006 Biocenter)	9:00-11:00 **Neural Function I** Lecture (seminar room 1.007 Biocenter) 11:00-17:00 Practical (course room 1.006 Biocenter)	9:00-11:00 **NF I** Lecture (seminar room 1.007 Biocenter) 11:00-17:00 Practical (course room 1.006 Biocenter)	
10:00 10:30	10:00-15:45 **Experimental and Translational Neuroimaging**** Jülich, Bld. 15.2, seminar room 3027	10:00-15:45 **Experimental and Translational Neuroimaging**** Jülich, Bld. 15.2, seminar room 3027	10:00-15:45 **Experimental and Translational Neuroimaging**** Jülich, Bld. 15.2, seminar room 3027	10:00-15:45 **Experimental and Translational Neuroimaging**** Jülich, Bld. 15.2, seminar room	
11:00 11:30					
12:00 12:30					
13:00 13:30					
14:00 14:30	14:00-16:00 **Neurological and Psychiatric Diseases**				
15:00 15:30					
16:00 16:30	16:00-18-00 **Clinical Neuroscience I**	4-5:30pm **Neurosurgical Aspects in Neuroscientific Systems**			
17:00 17:30					
18:00 18:30					
19:00 19:30					

** Experimental and Translational Neuroimaging: Forschungszentrum Jülich (Research Center Jülich)
Street address: Wilhelm-Johnen-Straße, 52428 Jülich; (Bld. 15.2, entrance E1: Straight to the stairs à 1st floor à turn right à pass glass door “Durchgang zum PET-Zentrum” à seminar room 3027 on the right side)

Exemplary Schedule Master Experimental and Clinical Neuroscience Summer Term 2025

Week 3	Monday 21-04-25	Tuesday 22-04-25	Wednesday 23-04-25	Thursday 24-04-25	Friday 25-04-25
8:00 8:30					
9:00 9:30		9:00-11:00 **Neural Function I** Lecture (seminar room 1.007 Biocenter)			
10:00 10:30		10:00-15:45 **Experimental and Translational Neuroimaging**** Jülich, Bld. 15.2, seminar room 3027	10:00-15:45 **Experimental and Translational Neuroimaging**** Jülich, Bld. 15.2, seminar room 3027	10:00-15:45 **Experimental and Translational Neuroimaging**** Jülich, Bld. 15.2, seminar room	10:00-15:45 **Experimental and Translational Neuroimaging**** Jülich, Bld. 15.2, seminar room
11:00 11:30					
12:00 12:30		11:00-17:00 Practical (course room 1.006 Biocenter)	**NF I** 11:00-17:00 Practical (course room 1.006 Biocenter)	**NF I** 11:00-17:00 Practical (course room 1.006 Biocenter)	**NF I** 11:00-17:00 Practical (course room 1.006 Biocenter)
13:00 13:30					
14:00 14:30					
15:00 15:30					
16:00 16:30					
17:00 17:30					
18:00 18:30					
19:00 19:30					

Exemplary Schedule Master Experimental and Clinical Neuroscience Summer Term 2025

Week 4	Monday 28-04-25	Tuesday 29-04-25	Wednesday 30-04-25	Thursday 01-05-25	Friday 02-05-25
8:00 8:30					
9:00 9:30					
10:00 10:30	10:00-15:45 **Experimental and Translational Neuroimaging**** Jülich, Bld. 15.2, seminar room 3027	10:00-15:45 **Experimental and Translational Neuroimaging**** Jülich, Bld. 15.2, seminar room 3027	10:00-12:00 **Animal Models**		10:00-12:00 **Animal Models**
11:00 11:30	**NF I** 11:00-17:00 Practical (course room 1.006 Biocenter)	**NF I** 11:00-17:00 Practical (course room 1.006 Biocenter)	10:00-15:45 **Experimental and Translational Neuroimaging**** Jülich, Bld. 15.2, seminar room 3027		**NF I** 11:00-17:00 Practical (course room 1.006 Biocenter)
12:00 12:30			**NF I** 11:00-17:00 Practical (course room 1.006 Biocenter)		
13:00 13:30					
14:00 14:30	14:00-16:00 **Neurological and Psychiatric Diseases**				
15:00 15:30					
16:00 16:30	16:00-18-00 **Clinical Neuroscience I**	4-5:30pm **Neurosurgical Aspects in Neuroscientific Systems**			
17:00 17:30					
18:00 18:30					
19:00 19:30					

Exemplary Schedule Master Experimental and Clinical Neuroscience Summer Term 2025

Week 5	Monday 05-05-25	Tuesday 06-05-25	Wednesday 07-05-25	Thursday 08-05-25	Friday 09-05-25
8:00 8:30					
9:00 9:30					
10:00 10:30	10:00-15:45 **Experimental and Translational Neuroimaging**** Jülich, Bld. 15.2, seminar room 3027	10:00-15:45 **Experimental and Translational Neuroimaging**** Jülich, Bld. 15.2, seminar room 3027	10:00-12:00 **Animal Models**	10:00-15:45 **Experimental and Translational Neuroimaging**** Jülich, Bld. 15.2, seminar room 3027	10:00-12:00 **Animal Models**
11:00 11:30	**NF I** 11:00-17:00 Practical (course room 1.006 Biocenter)	NF I 11:00-17:00 Practical (course room 1.006 Biocenter)		**NF I** 11:00-17:00 Practical (course room 1.006 Biocenter)	
12:00 12:30					
13:00 13:30					
14:00 14:30	14:00-16:00 **Neurological and Psychiatric Diseases**				
15:00 15:30					
16:00 16:30	16:00-18-00 **Clinical Neuroscience I**	4-5:30pm **Neurosurgical Aspects in Neuroscientific Systems**			
17:00 17:30					
18:00 18:30					
19:00 19:30					

Exemplary Schedule Master Experimental and Clinical Neuroscience Summer Term 2025

Week 6	Monday 12-05-25	Tuesday 13-05-25	Wednesday 14-05-25	Thursday 15-05-25	Friday 16-05-25
8:00 8:30					
9:00 9:30		9:00-17:00 **Retinal Immunology** (Joseph-Stelzmann-Straße 9, building 35 (Anatomy), 3rd floor, room 3.014)	10:00-12:00 **Animal Models**	9:00-17:00 **Retinal Immunology** (Joseph-Stelzmann-Straße 9, building 35 (Anatomy), 3rd floor, room 3.014)	
10:00 10:30					10:00-12:00 **Animal Models**
11:00 11:30					
12:00 12:30					
13:00 13:30					
14:00 14:30	14:00-16:00 **Neurological and Psychiatric Diseases**				9:00-17:00 **Retinal Immunology** (Joseph-Stelzmann-Straße 9, building 35 (Anatomy), 3rd floor, room 3.014)
15:00 15:30					
16:00 16:30	16:00-18-00 **Clinical Neuroscience I**	4-5:30pm **Neurosurgical Aspects in Neuroscientific Systems**			
17:00 17:30					
18:00 18:30					
19:00 19:30					

Exemplary Schedule Master Experimental and Clinical Neuroscience Summer Term 2025

Week 7	Monday 19-05-25	Tuesday 20-05-25	Wednesday 21-05-25	Thursday 22-05-25	Friday 23-05-25
8:00 8:30					
9:00 9:30		9:00-17:00 **Retinal Immunology** (Joseph-Stelzmann-Straße 9, building 35 (Anatomy), 3rd floor, room 3.014)	10:00-12:00 **Animal Models**	9:00-17:00 **Retinal Immunology** (Joseph-Stelzmann-Straße 9, building 35 (Anatomy), 3rd floor, room 3.014)	
10:00 10:30					
11:00 11:30					
12:00 12:30					
13:00 13:30					
14:00 14:30	14:00-16:00 **Neurological and Psychiatric Diseases**				
15:00 15:30		15:00 Intro (online) **Computational Neuroscie**			
16:00 16:30	16:00-18-00 **Clinical Neuroscience I**	4-5:30pm **Neurosurgical Aspects in Neuroscientific Systems**			
17:00 17:30					
18:00 18:30					
19:00 19:30					

Week 7	Monday 19-05-25	Tuesday 20-05-25	Wednesday 21-05-25	Thursday 22-05-25	Friday 23-05-25
8:00 8:30					
9:00 9:30				9:00-17:00 **Retinal Immunology** (Joseph-Stelzmann-Straße 9, building 35 (Anatomy), 3rd floor, room 3.014)	9:00-17:00 **Retinal Immunology** (Joseph-Stelzmann-Straße 9, building 35 (Anatomy), 3rd floor, room 3.014)
10:00 10:30				**Neural Function I** time tba **ORAL EXAM**	10:00-12:00 **Animal Models**
11:00 11:30					
12:00 12:30					
13:00 13:30					
14:00 14:30					
15:00 15:30					
16:00 16:30					
17:00 17:30					
18:00 18:30					
19:00 19:30					

Exemplary Schedule Master Experimental and Clinical Neuroscience Summer Term 2025

Week 8	Monday 26-05-25	Tuesday 27-05-25	Wednesday 28-05-25	Thursday 29-05-25	Friday 30-05-25
8:00 8:30					
9:00 9:30					
10:00 10:30		10:00-17:00 **Neural Function II** Lecture (seminar room 1.007) Practicals (course room 1.006) Biocenter	10:00-17:00 **Neural Function II** Lecture (seminar room 1.007) Practicals (course room 1.006) Biocenter		10:00-17:00 **Neural Function II** Lecture (seminar room 1.007) Practicals (course room 1.006)
11:00 11:30					
12:00 12:30					
13:00 13:30					
14:00 14:30	14:00-16:00 **Neurological and Psychiatric**				
15:00 15:30					
16:00 16:30	16:00-18-00 **Clinical Neuroscience I**	4-5:30pm **Neurosurgical Aspects in**			
17:00 17:30					
18:00 18:30					
19:00 19:30					

Exemplary Schedule Master Experimental and Clinical Neuroscience Summer Term 2025

Week 9	Monday 02-06-25	Tuesday 03-06-25	Wednesday 04-06-25	Thursday 05-06-25	Friday 06-06-25
8:00 8:30					
9:00 9:30					
10:00 10:30		10:00-17:00 **Neural Function II** Lecture (seminar room 1.007) Practicals (course room 1.006) Biocenter	10:00-17:00 **Neural Function II** Lecture (seminar room 1.007) Practicals (course room 1.006) Biocenter	10:00-17:00 **Neural Function II** Lecture (seminar room 1.007) Practicals (course room 1.006) Biocenter	10:00-17:00 **Neural Function II** Lecture (seminar room 1.007) Practicals (course room 1.006)

Exemplary Schedule Master Experimental and Clinical Neuroscience Summer Term 2025

Week 16	Monday 21-07-25	Tuesday 22-07-25	Wednesday 23-07-25	Thursday 24-07-25	Friday 25-07-25
8:00 8:30					
9:00 9:30	Introduction **Neurophysiological and Genetic Approaches to Brain Function Analysis** **tba***				
10:00 10:30					
11:00 11:30					
12:00 12:30					
13:00 13:30					
14:00 14:30					
15:00 15:30					
16:00 16:30	4-5:30pm **NANS** **MC test**				
17:00 17:30					
18:00 18:30					
19:00 19:30					

* Neurophysiological and Genetic Approaches to Brain Function Analysis spans 7 weeks, oral examination on September 5th, 2025, written report tba
